With thanks to my friends and other yachtsmen, I have managed to put this shopping guide together.

The locations of the shops annotated with lower case alphabet are not guaranteed. The location will be in the general area. Should you find any information incorrect I would appreciate the correct address and name of the shops. There are many more suppliers of the items listed, however I do not have all their address. Hong Kong is always moving, some of the places may have closed down, if so, please let me know. Your help will be appreciated.
